MOSS-SIDE *and* GREENLANDS INTRODUCTIONS

1931

THE following group of introductions to the Iris fraternity, which I am offering for the first time this year, have been thoroughly tested and have proved their worth. AMBER GLOW for its gracefulness and beauty of coloring; DULCE ALAMO, not only for its size and lovely color, but for its alluring fragrance; BLUE MOON and LAVENDER KIDS for their clear color, much needed in landscape work, as well as their heavy texture which stands up well in rain and wind. HOUSTONIAN, besides its lovely color and fragrance, has a long blooming season, and is especially good in the South. SAN JACINTO and TEXAS RANGER, for their size and style. FAX for its dainty flowers, like a Torenia bloom; and FANNY GRAY for the velvety quality of its light lavender falls. While SIS, a dwarf, was chosen for its beauty of coloring and size of blossom. Last, but not least, there is MILLY MITCHELL, which is outstanding for the beauty of coloring, form, and fragrance of its large flowers on their tall stems.

AMBER GLOW (Davis 1931) (Crusader X Dominion)—S. & F. pale mauve, with wire edge of amber on F. Claw and haft ivory, flushed and veined amber; lovely opened flower, 4x5 in., height 30 in.....	\$10.00
BLUE MOON (Davis 1931) (Lewis Trowbridge x Half-dan)—Pale blue violet self, rounded flowers of heavy, satiny texture; flowers medium to large, height 30 in.; very graceful and effective.....	5.00
DULCE ALAMO (Davis 1931) (Shekinah X ——) —General effect rich, creamy ivory; S. & F. old ivory, flushed at claw and haft baryta yellow; F. veined empire yellow; Beard light cadmium yellow, deepening to orange; flowers 5x5 in., height 37 in.; S. ruffled, arching, cupped, texture heavy; F. velvety, drooping; fragrance XXX....	15.00
FANNY GRAY (Davis 1931)—S pale violet, ruffled; F flaring, pale violet, flushed and veined pansy violet, velvety; flower medium, height 25 to 28 in.; catches every one's eye either in garden or as cut flower.....	2.50
FAX (Davis 1931)—A dainty thing that makes a most intriguing clump for the front of the border; height 15 to 18 in.; flower tiny; S Bradley's violet; F same, with splotch of velvety hyacinth violet; F flaring. Narrow, ribbon-like foliage	2.50
HOUSTONIAN (Davis 1931) (Mother of Pearl x Lady Bing)—Pale mauve, flushed hortense violet; haft cream, gold reticulations; Beard amber yellow; flower 3 1/2x5 in., height 30 in.; long blooming season; fragrance XX.....	2.50
LAVENDER KIDS (Davis 1931) (Shekinah x ——) —Light lavender violet, with decided pink underglow, self; flowers rounded, of heavy wad-like texture, on 30-in. stalks; flowers medium, held well from stalk.....	5.00

MILLY MITCHELL (Davis 1931) (Lent A. Williamson x Moa)—S. an indescribable blend of dull, dark purple, bronze, and rose; F. dull, dark purple, with underglow of rose, haft ivory flushed mustard yellow at edge, heavily reticulated dull dark purple; inner face of claw reticulated same as haft. Beard yellow ocher. S. & F. both broad, the heavy velvet of F carrying into the haft; S cupped, erect; F drooping; flowers 6x5 in., height 40 in., low branched. Foliage tall and broad; fragrance XX..... **15.00**

SAN JACINTO (Davis 1931) (Crusader x Moa)—Pale lavender violet self, flushed and veined manganese violet; Claw and haft ivory veined, bronze; beard deep yellow, huge flowers on low-branched 36 in. stalk; S & F extremely broad, F flaring; fragrance XX..... **10.00**

SIS (Davis 1931) (Queen of May x—)—Dwarf; S pale pinkish buff, flushed pale rose purple; F pale lavender violet, flushed pale hortense violet; general effect orchid pink; flowers 3x4 in., height 6 to 8 in..... **5.00**

TEXAS RANGER (Davis 1931) (Sweet Lavender x Dominion)—S lavender violet, F bluish violet, flushed darker; an outstanding bicolor, with a type and style of its own; huge flowers on 40-in. stalks..... **10.00**

General List of Iris

	Each

Abbreviations used in list: G. & K., Goos & Koenemann; Sturt., Sturtevant; Wlmsn., Williamson; Mil., Millet; Vil., Vilmorin; Mor., Morrison; S., standards, or upper petals; F., falls, or lower petals; Int., Intermediate. Numbers to right of varietal name, rating of the American Iris Society, based on score of 100 as perfect.

Business Terms

Prices in this catalogue supplant those in all previous catalogues and price lists. We prepay transportation charges on all orders amounting to \$3.00 and over; less than \$3.00, include five cents for each plant to cover postage charge. All orders are personally superintended and delivery made from either Ashland, Virginia, or Houston, Texas, wherever we happen to be at time of filling order. Prices are based on the standard single rhizome, but except in very scarce varieties, a mother, or double, rhizome is always furnished.

Our plants are guaranteed true to name, and labeled with a tag that will last two or more years. The size of rhizomes vary with the variety and season. Our roots are healthy and well grown, and are free from root rot and Iris borer.

In the North and East, July and August planting is preferred; in the far South and Southwest, May and June, September and October; in Houston and vicinity, planting may be done all the year, though the months mentioned give best chance of bloom the following spring.

All varieties priced at \$1.00 and under, 12 for the price of 10; over \$1.00, 12 for the price of 11; 3 at dozen rate. This applies to general Iris list only; 1931 introductions are net.

On orders amounting to \$25.00 or more, an additional discount of 10 per cent will be allowed.

Full remittance should accompany all orders. We do not send orders C. O. D. Do not send currency or silver except by registered letter. Remittances may be made by post-office money order, bank draft, or by personal check, payable to Rosalie M. Dumble Davis.

We do not substitute except upon request.

Mail orders to:
